

**CONTINUING EDUCATION CELL**  
[ESTABLISHED UNDER CANADA INDIA INSTITUTIONAL CO-OPERATION PROJECT]

**SAKTHI POLYTECHNIC COLLEGE**  
SAKTHI NAGAR – 638315, ERODE DT.,

The Canada India Joint Internship Program (CIICP) and Directorate of Technical Education (DOTE) in our college are providing training to improve the employability of students.

Accordingly in the current academic year (2024-2025) during the fifth semester vacation (16-12-2024 to 06-01-2025) 10 days PCB Design training course was conducted by Equipment Repair Center (ERC) of CIICP.

The training course was excellently conducted by Mr. M. K. Subramanian (Resource Person).

A total of 30 students from the third year **Electrical and Electronics Engineering department** participated in the training course and benefited.

PCB design model material was provided to the students during the training.

Finally PCB Design exam was held for students on 10-01-2025. At the end of the exam, students will get a government certificate.

Mr. M. K. Subramanian (Resource person), taught the PCB theory session.

Mr. M. K. Subramanian (Resource person), ensures students' performance in practical session.

Mr. M. K. Subramanian (Resource person), Mr. M. Yuvarasu (Lecturer), students in exam session.

After Successfully Passing The Exam, The Students Received Their Certificates.
