

## **NDT – Value added course**

The Department of Metallurgy at Sakthi Polytechnic College, in collaboration with Queen India NDT Institute, is organizing a Level-II Certificate Training Course on Non-Destructive Testing (NDT) from July 2024 to April 2025. The program covers key NDT methods, including Liquid Penetrant Test (LPT), Ultrasonic Test (UT), Magnetic Particle Test (MPT), and Radiography Test (RT). Participants will receive theoretical and practical training.

This course offers excellent career opportunities in industries such as aerospace, oil & gas, construction, and heavy fabrication. The training sessions will be conducted in direct classroom mode on college working days.
