

INDUSTRIAL VISIT - 1

We have arranged an **industrial visit on 15.07.24** for our III Year & II year students to **Agri Intex-2024** which was held at **Codissia Trade Fair Complex, Coimbatore**. It was a wonderful experience for our students. The visit aimed to provide students with practical insights into the agricultural field, particularly focusing on the modern instruments used for agriculture.

INDUSTRIAL VISIT – 2

We have arranged an **industrial visit on 29.08.24 & 30.08.24, for our III Year & II year students Milkymist Dairy Food Private Limited, Perundurai**. It is a renowned dairy products manufacturer. The visit aimed to provide students with practical insights into the dairy industry, particularly focusing on the production, processing, and packaging of dairy products.

The industrial visit to Milkymist was an enriching experience that provided valuable insights into the operations of a modern dairy company. The students gained practical knowledge about the dairy industry's challenges and the technological advancements that address these challenges. The visit also emphasized the importance of quality control and hygiene in food processing industries.

III-YEAR STUDENTS

II-YEAR STUDENTS

INDUSTRIAL VISIT - 3

The **second-year** students of the Instrumentation and Control Engineering department of Sakthi Polytechnic College visited the **Mettur Thermal Power Plant** for an **industrial visit**. The visit aimed to give students practical exposure to the operations of a thermal power plant, with a special focus on instrumentation and control systems used in the plant's functioning.

During the visit, students had the opportunity to explore the plant's different sections, including the control room, where advanced automation and monitoring systems ensure smooth operations. The visit also provided valuable insights into the working of turbines, boilers, and the role of instrumentation in maintaining efficiency and safety in a power plant.

This industrial visit helped bridge the gap between theory and practice, giving students a deeper understanding of how instrumentation and control systems play a crucial role in large-scale industrial setups like thermal power plants.

INDUSTRIAL VISIT - 4

The **third-year** students of the Instrumentation and Control Engineering department of Sakthi Polytechnic College visited **Seshayee Paper and Boards, located in Palliplayam**, for an **industrial visit**. The visit provided students with valuable insights into the paper manufacturing process and the role of automation and control systems in a large-scale production environment.

During the visit, the students toured the facility, observing various stages of production, from raw material handling to the final product. The company's advanced machinery and control systems were explained in detail, highlighting the importance of instrumentation in maintaining product quality and efficiency.

This visit was an excellent learning experience, helping students connect theoretical concepts with real-world industrial applications. It also gave them a deeper understanding of how instrumentation and control engineering plays a critical role in the manufacturing sector.
