

## PARENT-TEACHER MEETING

A **Parent-Teacher Meeting (PTM)** for the **second and third-year students** of the Instrumentation and Control Engineering department at Sakthi Polytechnic College was held to foster communication between parents and faculty. The primary goal of the meeting was to discuss the academic progress, performance, and overall development of the students.

During the meeting, teachers provided insights into the students' achievements, areas for improvement, and any challenges faced in the course. Parents had the opportunity to ask questions, share their concerns, and discuss strategies for better student support. The session also emphasized the importance of maintaining a healthy balance between academic and extracurricular activities to ensure holistic development.

The PTM served as an important platform for building a strong partnership between the college and parents, ensuring that students receive the best support for their academic and personal growth.
