DEPARTMENT OF MECHANICAL ENGINEERING

DETAILS OF PARENT TEACHERS MEETING

Parent Teachers Meeting:

The Parent-Teacher Meeting (PTM) for the Mechanical Engineering Department was successfully held on **17th February 2025**. The meeting aimed to foster strong communication between parents and faculty members, ensuring a collaborative approach towards the academic and personal development of the students.

Key Highlights of the Meeting:

Student Performance Overview: Faculty members presented a detailed overview of the students' academic achievements, highlighting strengths and areas for improvement. This was a valuable opportunity for parents to better understand their child's progress and challenges in various subjects.

Student Engagement and Extracurricular Activities: There was a discussion on the importance of balancing academic work with extracurricular activities. Faculty encouraged parents to support their children's participation in events, competitions, and workshops that could enhance their learning experience.

Individual Discussions: Parents had the opportunity to meet with specific faculty members for one-on-one discussions about their child's progress. These private sessions were particularly useful for addressing individual concerns and setting goals for the upcoming term.

Feedback from Parents: Parents shared their thoughts and suggestions about the department's teaching methods and the learning environment. The faculty appreciated the feedback and assured parents that their suggestions would be taken into consideration to improve the overall experience for students.
