

### Alumni Interaction and Induction with III-EEE students

The Department of **Electrical and Electronics Engineering** organized by a special induction session for third year students, **M.Iniyavan and P.Ganesh** were shared their experiences on **29.07.2025**. Were the alumni from the Batch of **(2022-2025)**. This insightful program aimed to bridge the gap between academic learning and real-world applications by sharing firsthand experiences from industry and higher education. The alumni shared their career journeys, offered guidance on making the most of core subjects, and emphasized the importance of skill development, internships, and project-based learning. **Their relatable stories and valuable tips inspired the students to plan their academic path with clarity and confidence. The session also fostered a sense of belonging and continuity among the students, motivating them to stay connected with the department beyond graduation.**

### Alumni Interaction and Induction with II-EEE students

The Department of Electrical and Electronics Engineering conducted an exclusive induction program for second-year students on 29.07.2025, featuring distinguished alumni M. Iniyavan, K.T. Velamuthan, and P. Ganesh from the 2022–2025 batch. The objective of the session was to connect academic concepts with real-world experiences through meaningful insights drawn from industry practices and higher studies. The alumni recounted their professional journeys, shared useful strategies for mastering core subjects, and highlighted the significance of developing technical skills, participating in internships, and engaging in hands-on projects. **Their inspiring narratives and practical suggestions motivated students to shape their academic goals with purpose and confidence.** The session also strengthened the bond between students and the department, encouraging long-term engagement even after graduation.
