YOUT RED CROSS ACTIVITIES 2025-26

ROAD SAFETY AWARENESS PROGRAM

On behalf of the **Youth Red Cross (YRC)**, The **Road Safety Awareness Rally** was organized with the active participation of our college YRC and NSS volunteers on **12.12.2025**. The rally commenced from Anthiyur Boys Higher Secondary School and proceeded up to the Bus Stand under the guidance of Anthiyur Police Officers. During the rally, the students created awareness among the public by loudly raising slogans and delivering messages on the importance of road safety, traffic rules, and responsible behavior on roads. The program effectively sensitized the general public and encouraged safer road practices.

REGULAR HYGIENE MANAGEMENT

On behalf of the **Youth Red Cross (YRC)**, The **Regular Hygiene Management** was organized with the active participation of our college YRC and WID Cell. The **Regular Hygiene Management** program was successfully conducted on **18.12.2025** with the aim of creating awareness among students about healthy living practices. The program was presided over by **Dr. S. Senthil Arasu**, Principal of Sakthi Polytechnic College, Sakthi Nagar, who delivered the presidential address. The chief guest, **Mr. S. Sureshkumar, M.Sc., B.Ed., DRB, TNSRLM, Erode**, addressed the gathering and highlighted the importance of **Regular Hygiene Management** activities and healthy food habits to improve the immunity of the human body systems. He also delivered an informative speech on **anti-drug awareness**, emphasizing the harmful effects of drug abuse and the need for students to lead a disciplined and healthy lifestyle. Around **120 students** actively participated in the program, making it a meaningful and impactful event.

BASICS OF FIRST AID

The Youth Red Cross (YRC) of Sakthi Polytechnic College, Sakthi Nagar – 638 315, successfully organized a **one-day awareness program on “Basics of First Aid”** on **05.02.2026** at the **Meeting Hall** of the college. The program was organized with the objective of creating awareness among students about the importance of first aid and to equip them with basic life-saving skills required during emergencies. The **Special Address** was delivered by **Dr. A. Suresh, MBBS, C. Dia., Senior Assistant Surgeon, Primary Health Centre, Athani**. He provided detailed explanations on the basics of first aid, including handling bleeding, burns, fractures, fainting, snake bites, and other common emergencies. The session was highly informative and interactive, and students gained practical knowledge on immediate care before medical help arrives.
